EXPERIENCE

[Tulip Interfaces](#) / no-code composable MES (USA, Hungary) *Senior Full-Stack Engineer* [TypeScript, React, Mongo]

AUG 2023 - NOW

- **Owned large-scale customer-impacting project** with multiple high-risk database migrations, coordinating rollout and shipping without incidents or downtime
- Acted as a **technical representative** for the team in organization-wide technical discussions, influencing architectural decisions
- **Mentored** junior and mid-level engineers, contributing to onboarding, code quality, and team velocity
- Built and maintained an **AI session manager** and daily driver tool used by multiple teams, handling 1000+ agentic sessions

[Maverick Derivatives](#) / options trading (Netherlands) *Backend Engineer* [C++]

MAY 2021 - JAN 2023

- Built a trading server from scratch managing **200k instruments**, responsible for **30% of all company trades** in the domain
- Took **full ownership** of a latency-sensitive quoting service, including development, deployment, monitoring, and on-call incident response
- **Collaborated closely with traders** and stakeholders to translate business requirements into reliable, production-grade systems

[aiMotive](#) / autonomous driving (Hungary) *Software Engineer* [C, C++]

JUL 2017 - APR 2021

- Built a media ingestion and storage system processing **100+ GB of video data per day**, supporting internal tooling and analysis workflows
- Refactored the software-to-vehicle API to support **4 car platforms**, improving maintainability and developer experience

EDUCATION

Budapest University of Technology and Economics

Electrical Engineering

Master's Degree (summa cum laude)

SEP 2014 - JAN 2021

SIDE PROJECT

[Babocar](#) [C++, Node.js, React]

Complete hardware and software for a **self-driving model car**.

It holds the all-time [lap record](#) at the RoboAUT autonomous car race.

TECHNOLOGIES

TypeScript, C/C++, Node.js, React, Boost

Jest, Playwright, Cypress, GTest, GMock

MongoDB, PostgreSQL, Redis

Microservices, APIs, Google Protobuf

Docker, Kubernetes, AWS

GitHub Actions

Claude Code

SKILLS

Enthusiastic proactiveness

Autonomy and ownership

Quick understanding of new concepts

Effective communication

LANGUAGES

English (proficient)

Hungarian (native)
