EXPERIENCE

[Tulip Interfaces](#) / composable MES platform (Hungary)

Full-Stack Engineer [TypeScript, Go, React, Mongo]

AUG 2023 - NOW

Part of a team owning multiple microservices and frontend components responsible for composable integrations with external software. Actively participated in and owned several medium-scale projects targeting new functionality, ease of use, performance, and data model maintainability. As a senior member, often made system architectural decisions, represented the team in organization-wide technical discussions, participated in the hiring process, and mentored team members.

[Maverick Derivatives](#) / trading company (Netherlands)

Backend Engineer [C++]

MAY 2021 - JAN 2023

Built and maintained a trading server managing 200k instruments, responsible for 30% of all company trades in the domain. Learned how to handle stress well.

[aiMotive](#) / self-driving startup (Hungary)

Software Engineer [C, C++]

JUL 2017 - APR 2021

Created a media library recording 100+ GB of videos every day. Refactored the software-to-car interface and added support for 4 car platforms. Built a desktop application for monitoring the car.

EDUCATION

Budapest University of Technology and Economics

Electrical Engineering

Master's Degree (summa cum laude)

SEP 2014 - JAN 2021

SIDE PROJECTS

[Babocar](#) [C++, Node.js, React]

Complete hardware, software, and monitoring web application for a self-driving car. In 2021, it broke the all-time [lap record](#) at the RobonAUT autonomous car race.

TECHNOLOGIES

TypeScript, C/C++, Go

Node.js, React, Jest, Boost, GTest, Conan

Google Protobuf, Kafka

Docker, ROS, FreeRTOS

MongoDB, Postgres, Redis

GitHub Actions, Kubernetes, Ansible

SKILLS

Enthusiastic proactiveness

Autonomy and ownership

Critical thinking and problem solving

Strong work ethic and dependability

Quick understanding of new concepts

Effective communication

LANGUAGES

English (proficient)

Hungarian (native)

HOBBIES

I prefer active ways to spend time - mostly bouldering and ice hockey. I'm also an enthusiastic DIY woodworker.

Lately, my main free-time activity is chasing after my one-year-old son...
